Child and Youth Services

Young people often do not have the words to express what is troubling them. Our licensed clinicians are trained to work with children and adolescents, using a variety of techniques to make them feel comfortable. We provide direction to parents about how to handle family crises to help them resolve their issues and strengthen their family. For clients in treatment with our clinicians, and in cases where medication is needed, we offer psychiatric services from a board-certified child and adolescent psychiatrist.

Substance Use Disorders

Our Behavioral Health Services operate State of Michigan-licensed substance abuse treatment for those suffering varying degrees of substance abuse. We offer individual and group treatment options. We provide a comprehensive treatment program consisting of individual and group therapy as well as psychiatric services for those suffering from a mental health or substance abuse diagnosis. Other services include substance abuse disorder evaluations for court and evaluations for driver's license reinstatements.
